

KEIM DESIGN

KEIM Design is Keim's new colour palette of 22 metallic colours. Suitable for application onto a wide variety of concrete and mineral substrates, the new Keim Design system is ideal for creation of a range of unique metallic effects, both internally and externally. The inorganic pigments used give a brilliant, stable and lightfast finish. The Keim Design system can be diluted using Keim Design Fixativ or Keim Design Base to create a variety of unique colourwash effects.

In the following overview you can find the mixing ratios to achieve the 22 color shades out of the four basic shades.

| Color Shade | Mixing ratio | Example |
|-------------|-----------------------------------|--------------------------------------------------------------------------------------|
| Gold | D1001 Full tone |  |
| Silver | D1002 Full tone |  |
| Copper | D1003 Full tone |  |
| Lava red | D1004 Full tone |  |
| Champagne | D1252 1001 = 25% 1002 = 75% |  |
| Brume d'or | D1502 1001 = 50% 1002 = 50% |  |
| Or vieilli | D1752 1001 = 75% 1002 = 25% |  |
